Kort præsentation

Philip Rasmussen er adjunkt i dyresundhedsøkonomi ved Sektion for Dyrevelfærd og Sygdomsbekæmpelse, Institut for Veterinær- og Husdyrvidenskab, Københavns Universitet. Hans forskning fokuserer på husdyrsygdomme med vægt på fremme af evidensbaseret dyresundhedspolitik gennem estimering af økonomiske byrder og omkostninger og fordele ved sygdomsbekæmpelsesstrategier.

Publikationer

Rationalising development of classification systems describing livestock production systems for disease burden analysis within the Global Burden of Animal Diseases programme
Li, Y., McIntyre, K. M., Rasmussen, Philip, Gilbert, W., Chaters, G., Raymond, K., Jemberu, W. T., Larkins, A., Patterson, G. T., Kwok, S., Kappes, A. J., Mayberry, D., Schrobback, P., Acosta, M. H., Stacey, D. A., Huntington, B., Bruce, M., Knight-Jones, T. & Rushton, J., mar. 2024, I: Research in Veterinary Science. 168, 105102.

Economic losses due to foot-and-mouth disease (FMD) in Ethiopian cattle
Rasmussen, Philip, Shaw, A. P., W.T, J., Knight-Jones, T., Conrady, Beate, Apenteng, Ofosuhene Okofrobour, Cheng, Y. , Muñoz, V., Rushton, J. & Torgerson, P., 2024, (Afsendt) I: Submitted Manuscript.

Global losses due to dairy cattle diseases: A comorbidity-adjusted economic analysis
Rasmussen, Philip, Barkema, H., Osei, P. P., Taylor, J., Shaw, A., Conrady, Beate, Chaters, G., Munoz-Gómez, V., Hall, D. C., Apenteng, Ofosuhene Okofrobour, Rushton, J. & Torgerson, P. R., 2024, (Accepteret/In press) I: Journal of Dairy Science.

Prediction of coccidiosis prevalence in extensive backyard chickens in countries and regions of the Horn of Africa
Muñoz-Gómez, V., Furrer, R., Yin, J., Shaw, A. P., Rasmussen, Philip & Torgerson, P. R., 2024, I: Veterinary Parasitology. 327, 110143.

Social network analysis reveals the failure of between-farm movement restrictions to reduce Salmonella transmission
Conrady, Beate, Dervic, E., Klimek, P., Pedersen, L., Reimert, Mossa Merhi, Rasmussen, Philip, Apenteng, Ofosuhene Okofrobour & Nielsen, Liza Rosenbaum, 2024, (Accepteret/In press) I: Journal of Dairy Science.

Economic premiums associated with Mycobacterium avium ssp. paratuberculosis-negative replacement purchases in major dairy-producing regions
Rasmussen, Philip, Barkema, H. W., Beaulieu, E., Mason, S. & Hall, D. C., 2022, I: Journal of Dairy Science. 105, 4, s. 3234-3247

Estimating the burden of multiple endemic diseases and health conditions using Bayes' Theorem: A conditional probability model applied to UK dairy cattle
Rasmussen, Philip, Shaw, A. P. M., Munoz, V., Bruce, M. & Torgerson, P. R., 2022, I: Preventive Veterinary Medicine. 203 , 105617.

Economic losses due to Johne's disease (paratuberculosis) in dairy cattle
Rasmussen, Philip, Barkema, H. W., Mason, S., Beaulieu, E. & Hall, D. C., jan. 2021, I: Journal of Dairy Science. 104, 3, s. 3123-3143

Effectiveness and Economic Viability of Johne's Disease (Paratuberculosis) Control Practices in Dairy Herds
Rasmussen, Philip, Barkema, H. W. & Hall, D. C., 2021, I: Frontiers in Veterinary Science. 7

Estimation of the value of Johne's disease (paratuberculosis) control to Canadian dairy producers
Rasmussen, Philip, 2021, I: Preventive Veterinary Medicine. 105297.
