Kvalifikationer

Biologi/Zoofysiologi, lic. scient.
1 jan. 1982 → 30 maj 1984
Dimissionsdato: 12 nov. 1984
biologi/zoofysiologi, cand. scient., Aarhus University
1 sep. 1974 → 19 sep. 1980
Dimissionsdato: 19 sep. 1980

Ansættelse

Professor
Marine Biological Section
Københavns Universitet
Helsingør, Danmark
1 aug. 1989 → nu

videnskabelig medarbejder

Danmarks Miljøundersøgelser, Aarhus Universitet
1 okt. 1988 → 30 jul. 1988

seniorstipendiat

Aarhus University
Tjele, Danmark
1 jan. 1986 → 30 sep. 1988

postdoc

Department of Zoology University of British Columbia Vancouver BC Canada.
1 jan. 1985 → 31 dec. 1985

Visiting Scientist

RSMAS, University of Miami, Miami, FL
USA
1 sep. 1980 → 31 aug. 1981

Publikationer

The rostral micro-tooth morphology of blue marlin, *Makaira nigricans*

Pacher, K., Breuker, M., Hansen, M. J., Kurvers, R. H. J. M., Häge, J., Dhellemmes, F., Domenici, P., Steffensen, John Fleng, Krause, S., Hildebrandt, T., Fritsch, G., Bach, P., Sabarros, P. S., Zaslansky, P., Mahlow, K., Müller, J., Armas, R. G., Ortiz, H. V., Galván-Magaña, F. & Krause, J., 2024, I: Journal of Fish Biology. 104, 3, s. 713-722 10 s.

A novel protocol for rapid deployment of heart rate data storage tags in Atlantic bluefin tuna *Thunnus thynnus* reveals cardiac responses to temperature and feeding

Rouyer, T., Bonhommeau, S., Bernard, S., Kerzerho, V., Derridj, O., Bjarnason, Allal, H., Steffensen, John Fleng, Deguara, S., Wendling, B., Bal, G., Thambithurai, D. & Mckenzie, D. J., 2023, (E-pub ahead of print) I: Journal of Fish

Biology.

Bowhead NEIL1: molecular cloning, characterization, and enzymatic properties

Holm, S., Larsen, R. M., Holst, C. M., Heide-Jørgensen, M. P., Steffensen, John Fleng, Stevnsner, T. & Larsen, K., 2023, I: *Biochimie*. 206, s. 136-149 14 s.

Model of Oxygen Conditions within Aquaculture Sea Cages

Bergsson, H., Svendsen, M. B. S. & Steffensen, John Fleng, 2023, I: *Biology*. 12, 11, 17 s., 1408.

Physiological effects of temperature on Greenland halibut *Reinhardtius hippoglossoides* shows high vulnerability of Arctic stenotherms to global warming

Ruth, A., Svendsen, M. B. S., Nygaard, R., Christensen, E. A. F., Bushnell, P. G. & Steffensen, John Fleng, 2023, I: *Journal of Fish Biology*. 103, 3, s. 675-683 9 s.

The Influence of Body Size on Behavioral Thermal Preference in Atlantic Cod (*Gadus morhua*): Larger Fish Favor Colder Waters

Schakmann, M., Christensen, E. A. F., Steffensen, John Fleng & Svendsen, M. B. S., 2023, I: *Fishes*. 8, 12, 11 s., 596.

Escaping from multiple visual threats: modulation of escape responses in Pacific staghorn sculpin (*Leptocottus armatus*)

Kimura, H., Pfalzgraff, T., Levet, M., Kawabata, Y., Steffensen, John Fleng, Johansen, J. L. & Domenici, P., 2022, I: *The Journal of Experimental Biology*. 225, 9, 9 s., jeb243328.

Lacunae rostralis: A new structure on the rostrum of sailfish *Istiophorus platypterus*

Häge, J., Hansen, M. J., Pacher, K., Dhellemmes, F., Domenici, P., Steffensen, John Fleng, Breuker, M., Krause, S., Hildebrandt, T. B., Fritsch, G., Bach, P., Sabarros, P. S., Zaslansky, P., Mahlow, K., Schauer, M., Müller, J. & Krause, J., 2022, I: *Journal of Fish Biology*. 100, 5, s. 1205-1213 9 s.

Intraspecific variation in thermal tolerance differs between tropical and temperate fishes

Nati, J. J. H., Svendsen, M. B. S., Marras, S., Killen, S. S., Steffensen, John Fleng, McKenzie, D. J. & Domenici, P., 2021, I: *Scientific Reports*. 11, 8 s., 21272.

Latency of mechanically stimulated escape responses in the Pacific spiny dogfish, *Squalus suckleyi*

Schakmann, M., Becker, V., Søgaard, M., Johansen, J. L., Steffensen, John Fleng & Domenici, P., 2021, I: *Journal of Experimental Biology*. 224, 6 s., jeb230698.

Physiological traits of the Greenland shark *Somniosus microcephalus* obtained during the TUNU-Expeditions to Northeast Greenland

Di Prisco, G., Ademollo, N., Ancora, S., Christiansen, J. S., Coppola, D., Corsolini, S., Ferrando, S., Ghigliotti, L., Giordano, D., Lynghammar, A., Nielsen, J., Pisano, E., Russo, R., Steffensen, John Fleng & Verde, C., 2021, *Life in Extreme Environments: Insights in Biological Capability*. Di Prisco, G., Edwards, H. G. M., Elster, J. & Huiskes, A. H. L. (red.). Cambridge University Press, s. 11-41 (Ecological Reviews).

Population ecology, growth, and physico-chemical habitat of anadromous European perch *Perca fluviatilis*

Christensen, E. A. F., Svendsen, M. B. S. & Steffensen, John Fleng, 2021, I: *Estuarine, Coastal and Shelf Science*. 249, 8 s., 107091.

Regulate or tolerate: Thermal strategy of a coral reef flat resident, the epaulette shark, *Hemiscyllium ocellatum*

Nay, T. J., Longbottom, R. J., Gervais, C. R., Johansen, J. L., Steffensen, John Fleng, Rummer, J. L. & Hoey, A. S., 2021, I: *Journal of Fish Biology*. 98, 3, s. 723-732 10 s.

Shuttle-box systems for studying preferred environmental ranges by aquatic animals

Christensen, E. A. F., Andersen, L. E. J., Bergsson, H., Steffensen, John Fleng & Killen, S. S., 2021, I: *Conservation Physiology*. 9, 1, 21 s., coab028.

Species interactions alter the selection of thermal environment in a coral reef fish

Nay, T. J., Johansen, J. L., Rummer, J. L., Steffensen, John Fleng & Hoey, A. S., 2021, I: *Oecologia*. 196, 2, s. 363-371 9 s.

Assessing the reproductive biology of the Greenland shark (*Somniosus microcephalus*)

Nielsen, J., Hedeholm, R. B., Lynghammar, A., McClusky, L. M., Berland, B., Steffensen, John Fleng & Christiansen, J. S., 2020, I: *PLoS ONE*. 15, 10, 22 s., e0238986.

Bidirectional cyclical flows increase energetic costs of station holding for a labriform swimming fish, *Cymatogaster aggregata*

Luongo, S. M., Ruth, A., Gervais, C. R., Korsmeyer, K. E., Johansen, J. L., Domenici, P. & Steffensen, John Fleng, 2020, I: *Conservation Physiology*. 8, 1, 11 s., coaa077.

Habitat complexity influences selection of thermal environment in a common coral reef fish

Nay, T. J., Johansen, J. L., Rummer, J. L., Steffensen, John Fleng, Pratchett, M. S. & Hoey, A. S., 2020, I: *Conservation Physiology*. 8, 1, 9 s., coaa070.

Linking hunting weaponry to attack strategies in sailfish and striped marlin

Hansen, M. J., Krause, S., Breuker, M., Kurvers, R. H. J. M., Dhellemmes, F., Viblanc, P. E., Müller, J., Mahlow, C., Boswell, K., Marras, S., Domenici, P., Wilson, A. D. M., Herbert-Read, J. E., Steffensen, John Fleng, Fritsch, G., Hildebrandt, T. B., Zaslansky, P., Bach, P., Sabarros, P. S. & Krause, J., 2020, I: *Proceedings of the Royal Society B: Biological Sciences*. 287, 1918, 9 s., 20192228.

Oil gland and oil pores in billfishes: in search of a function

Dhellemmes, F., Hansen, M. J., Bouet, S. D., Videler, J. J., Domenici, P., Steffensen, John Fleng, Hildebrandt, T., Fritsch, G., Bach, P., Sabarros, P. S., Krüger, A., Kurvers, R. H. J. M. & Krause, J., 2020, I: *The Journal of Experimental Biology*. 223, 7 s., jeb224956.

Swimming in unsteady water flows: is turning in a changing flow an energetically expensive endeavor for fish?

Schakmann, M., Steffensen, John Fleng, Bushnell, P. G. & Korsmeyer, K. E., 2020, I: *The Journal of Experimental Biology*. 223, 6, 10 s.

The combined effect of body size and temperature on oxygen consumption rates and the size-dependency of preferred temperature in European perch *Perca fluviatilis*

Christensen, E. A. F., Svendsen, M. B. S. & Steffensen, John Fleng, 2020, I: *Journal of Fish Biology*. 97, 3, s. 794-803

Advancing Research for the Management of Long-Lived Species: A Case Study on the Greenland Shark

Edwards, J. E., Hiltz, E., Broell, F., Bushnell, P. G., Campana, S. E., Christiansen, J. S., Devine, B. M., Gallant, J. J., Hedges, K. J., MacNeil, M. A., McMeans, B. C., Nielsen, J., Præbel, K., Skomal, G. B., Steffensen, John Fleng, Walter, R. P., Watanabe, Y. Y., VanderZwaag, D. L. & Hussey, N. E., 2019, I: *Frontiers in Marine Science*. 6, s. 1-27 87.

Are all bony fishes oxygen regulators? Evidence for oxygen regulation in a putative oxygen conformer, the swamp eel *Synbranchus marmoratus*

Svendsen, M. B. S., Johansen, J. L., Bushnell, P. G., Skov, P. V., Norin, T., Domenici, P., Steffensen, John Fleng & Abe, A., 2019, I: *Journal of Fish Biology*. 94, 1, s. 178-182

Dermal Denticles of Three Slowly Swimming Shark Species: Microscopy and Flow Visualization

Feld, K., Kolborg, Anne Noer, Nyborg, C. M., Salewski, M., Steffensen, John Fleng & Berg-Sørensen, K., 2019, I: *Biomimetics*. 4, 2, 20 s., 38.

Excess postexercise oxygen consumption decreases with swimming duration in a labriform fish: integrating aerobic and anaerobic metabolism across time

Cordero, G. A., Methling, C., Tirsgaard, B., Steffensen, John Fleng, Domenici, P. & Svendsen, J. C., 2019, I: *Journal of Experimental Zoology. Part A: Ecological and Integrative Physiology*. 331, 10, s. 577-586 10 s.

Greenland Shark (*Somniosus microcephalus*) Stomach Contents and Stable Isotope Values Reveal an Ontogenetic Dietary Shift

Nielsen, J., Christiansen, J. S., Grønkvær, P., Bushnell, P., Steffensen, John Fleng, Kiilerich, H. O., Præbel, K. & Hedeholm, R., 2019, I: *Frontiers in Marine Science*. 6, s. 1-11 125.

Intra-Specific Difference in the Effect of Salinity on Physiological Performance in European Perch (*Perca fluviatilis*) and Its Ecological Importance for Fish in Estuaries

Christensen, E. A. F., Stieglitz, J. D., Grosell, M. & Steffensen, John Fleng, 2019, I: *Biology*. 8, 4, 17 s., 89.

Intussusceptive Vascular Remodeling Precedes Pathological Neovascularization

Ali, Z., Mukwaya, A., Biesemeier, A., Ntzouni, M., Ramsköld, D., Giatrellis, S., Mammadzada, P., Cao, R., Lennikov, A., Marass, M., Gerri, C., Hildesjö, C., Taylor, M., Deng, Q., Peebo, B., del Peso, L., Kvant, A., Sandberg, R., Schraermeyer, U., Andre, H. & 5 flere, Steffensen, John Fleng, Lagali, N., Cao, Y., Kele, J. & Jensen, L. D., 2019, I: *Arteriosclerosis, Thrombosis, and Vascular Biology*. 39, 7, s. 1402-1418

Maximum salinity tolerance and osmoregulatory capabilities of European perch *Perca fluviatilis* populations originating from different salinity habitats

Christensen, E. A. F., Grosell, M. & Steffensen, John Fleng, 2019, I: *Conservation Physiology*. 7, 1, s. 1-5 coz004.

Respiratory Physiology of European Plaice (*Pleuronectes platessa*) Exposed to *Prymnesium parvum*

Bergsson, H., Andersen, N. R., Svendsen, M. B. S., Hansen, Per Juel & Steffensen, John Fleng, 2019, I: *Fishes*. 4, 2, 13 s., 32.

Blood pressure in the Greenland shark as estimated from ventral aortic elasticity

Shadwick, R. E., Bernal, D., Bushnell, P. G. & Steffensen, John Fleng, okt. 2018, I: *Journal of Experimental Biology*. 221, 19, s. 1-6 jeb186957.

Effects of salinity on swimming performance and oxygen consumption rate of shiner perch *Cymatogaster aggregata*

Christensen, E. A. F., Illing, B., Iversen, N. S., Johansen, J. L., Domenici, P. & Steffensen, John Fleng, jul. 2018, I: *Journal of Experimental Marine Biology and Ecology*. 504, s. 32-37 6 s.

Effects of harmful algal blooms on fish: insights from *Prymnesium parvum*

Svendsen, M. B. S., Andersen, N. G., Hansen, Per Juel & Steffensen, John Fleng, 2018, I: *Fishes*. 3, 1, 12 s., 11.

The emergence emergency: a mudskipper's response to temperatures

Nay, T. J., Gervais, C. R., Hoey, A. S., Johansen, J. L., Steffensen, John Fleng & Rummer, J. L., 2018, I: *Journal of Thermal Biology*. 78, s. 65-72

Too hot to handle? Using movement to alleviate effects of elevated temperatures in a benthic elasmobranch, *Hemiscyllium ocellatum*

Gervais, C. R., Nay, T. J., Renshaw, G., Johansen, J. L., Steffensen, John Fleng & Rummer, J. L., 2018, I: *Marine Biology*. 165, 11, s. 1-12 162.

Turbulent flow reduces oxygen consumption in the labriform swimming shiner perch, *Cymatogaster aggregata*

van der Hoop, J. M., Byron, M. L., Ozolina, K., Miller, D. L., Johansen, J. L., Domenici, P. & Steffensen, John Fleng, 2018, I: *Journal of Experimental Biology*. 221, 11, s. 1-11 jeb168773.

Blood O₂ affinity of a large polar elasmobranch, the Greenland shark *Somniosus microcephalus*

Herbert, N. A., Skov, P. V., Tirsgård, B., Bushnell, P. G., Brill, R. W., Clark, C. H. & Steffensen, John Fleng, nov. 2017, I: *Polar Biology*. 40, 11, s. 2297-2305 9 s.

Injury-mediated decrease in locomotor performance increases predation risk in schooling fish

Krause, J., Herbert-Read, J. E., Seebacher, F., Domenici, P., Wilson, A. D. M., Marras, S., Svendsen, M. B. S., Strömbom, D., Steffensen, John Fleng, Krause, S., Viblanc, P. E., Couillaud, P., Bach, P., Sabarros, P. S., Zaslansky, P. & Kurvers, R. H. J. M., 19 aug. 2017, I: *Philosophical Transactions of the Royal Society B: Biological Sciences*. 372, 1727, 8 s., 20160232.

The effect of hypoxia on fish schooling

Domenici, P., Steffensen, John Fleng & Marras, S., 19 aug. 2017, I: Philosophical Transactions of the Royal Society B: Biological Sciences. 372, 1727, 13 s., 20160236.

The angular position of a refuge affects escape responses in staghorn sculpin *Leptocottus armatus*

Shi, X., Møller, J. S., Højgaard, J., Johansen, J. L., Steffensen, John Fleng, Liu, D. & Domenici, P., jun. 2017, I: Journal of Fish Biology. 90, 6, s. 2434-2442 9 s.

Plasma osmolality and oxygen consumption of perch *Perca fluviatilis* in response to different salinities and temperatures

Christensen, E. A. F., Svendsen, M. B. S. & Steffensen, John Fleng, mar. 2017, I: Journal of Fish Biology. 90, 3, s. 819-833 15 s.

Characterization of the functional and anatomical differences in the atrial and ventricular myocardium from three species of elasmobranch fishes: smooth dogfish (*Mustelus canis*), sandbar shark (*Carcharhinus plumbeus*), and clearnose skate (*Raja eglanteria*)

Larsen, J., Bushnell, P., Steffensen, John Fleng, Pedersen, M., Qvortrup, Klaus & Brill, R., feb. 2017, I: Journal of Comparative Physiology B: Biochemical, Systems, and Environmental Physiology. 187, 2, s. 291-313 23 s.

To scale or not to scale: a perspective on describing fish energy budgeting

Svendsen, M. B. S., Christensen, E. A. F. & Steffensen, John Fleng, 1 jan. 2017, I: Conservation Physiology. 5, 1, 10 s., cox056.

Adapt, move or die - how will tropical coral reef fishes cope with ocean warming?

Habary, A., Johansen, J. L., Nay, T. J., Steffensen, John Fleng & Rummer, J. L., 2017, I: Global Change Biology. 23, 2, s. 566-577 12 s.

Optimum temperature of a northern population of Arctic charr (*Salvelinus alpinus*) using heart rate Arrhenius breakpoint analysis

Hansen, A. K., Byriel, David Bille, R. Jensen, M., Steffensen, John Fleng & Svendsen, M. B. S., 2017, I: Polar Biology. 40, 5, s. 1063-1070 8 s.

The Evolution of Lateralization in Group Hunting Sailfish

Kurvers, R. H. J. M., Krause, S., Viblanc, P. E., Herbert-Read, J. E., Zaslansky, P., Domenici, P., Marras, S., Steffensen, John Fleng, Svendsen, M. B. S., Wilson, A. D. M., Couillaud, P., Boswell, K. M. & Krause, J., 2017, I: Current Biology. 27, 4, s. 521-526 6 s.

The Greenland shark: a new challenge for the oxidative stress theory of ageing?

Costantini, D., Smith, S., Killen, S. S., Nielsen, J. & Steffensen, John Fleng, 2017, I: Comparative Biochemistry and Physiology. Part A: Molecular & Integrative Physiology. 203, s. 227-232 6 s.

Eye lens radiocarbon reveals centuries of longevity in the Greenland shark (*Somniosus microcephalus*)

Nielsen, J., Hedeholm, R. B., Heinemeier, J., Bushnell, P. G., Christiansen, J. S., Olsen, J., Ramsey, C. B., Brill, R. W., Simon, M., Steffensen, K. F. & Steffensen, John Fleng, 12 aug. 2016, I: Science (New York, N.Y.). 353, 6300, s. 702-4 3 s.

Conservation physiology of marine fishes: state of the art and prospects for policy

McKenzie, D. J., Axelsson, M., Chabot, D., Claireaux, G., Cooke, S. J., Corner, R. A., De Boeck, G., Domenici, P., Guerreiro, P. M., Hamer, B., Jørgensen, C., Killen, S. S., Lefevre, S., Marras, S., Michaelidis, B., Nilsson, G. E., Peck, M. A., Perez-Ruzafa, A., Rijnsdorp, A. D., Shiels, H. A. & 9 flere, Steffensen, John Fleng, Svendsen, J. C., Svendsen, M. B. S., Teal, L. R., van der Meer, J., Wang, T., Wilson, J. M., Wilson, R. W. & Metcalfe, J. D., 2016, I: Conservation Physiology. 4, 1, 20 s., cow046.

Design and setup of intermittent-flow respirometry system for aquatic organisms

Svendsen, M. B. S., Bushnell, P. G. & Steffensen, John Fleng, 2016, I: Journal of Fish Biology. 88, 1, s. 26-50 25 s.

Effect of closed v. intermittent-flow respirometry on hypoxia tolerance in the shiner perch *Cymatogaster aggregata*

Snyder, S., Nadler, L. E., Bayley, J. S., Svendsen, M. B. S., Johansen, J. L., Domenici, P. & Steffensen, John Fleng, 2016, I: Journal of Fish Biology. 88, 1, s. 252-264 13 s.

Laser speckle contrast imaging for monitoring changes in microvascular blood flow

Ambrus, R., Strandby, R. B., Svendsen, Lars Bo, Achiam, Michael Patrick, Steffensen, John Fleng & Svendsen, M. B. S., 2016, I: European Surgical Research. 56, 3-4, s. 87-96 10 s.

Maximum swimming speeds of sailfish and three other large marine predatory fish species based on muscle contraction time and stride length: a myth revisited

Svendsen, M. B. S., Domenici, P., Marras, S., Krause, J., Boswell, K. M., Rodriguez-Pinto, I., Wilson, A. D. M., Kurvers, R. H. J. M., Viblanc, P. E., Finger, J. S. & Steffensen, John Fleng, 2016, I: Biology Open. 5, 10, s. 1415-1419 5 s.

Partitioning the metabolic scope: the importance of anaerobic metabolism and implications for the oxygen- and capacity-limited thermal tolerance (OCLTT) hypothesis

Ejbye-Ernst, R., Michaelsen, T. Y., Tirsgård, B., Wilson, J. M., Jensen, L. F., Steffensen, John Fleng, Pertoldi, C., Aarestrup, K. & Svendsen, J. C., 2016, I: Conservation Physiology. 4, 1, 13 s.

Proto-cooperation: group hunting sailfish improve hunting success by alternating attacks on grouping prey

Herbert-Read, J. E., Romanczuk, P., Krause, S., Strömbom, D., Coullaud, P., Domenici, P., Kurvers, R. H. J. M., Marras, S., Steffensen, John Fleng, Wilson, A. D. M. & Krause, J., 2016, I: Royal Society of London. Proceedings B. Biological Sciences. 283, 1842, 9 s., 20161671.

Sources of variation in oxygen consumption of aquatic animals demonstrated by simulated constant oxygen consumption and respirometers of different sizes

Svendsen, M. B. S., Bushnell, P. G., Christensen, E. A. F. & Steffensen, John Fleng, 2016, I: Journal of Fish Biology. 88, 1, s. 51-64 14 s.

The determination of standard metabolic rate in fishes

Chabot, D., Steffensen, John Fleng & Farrell, A. P., 2016, I: Journal of Fish Biology. 88, 1, s. 81-121 41 s.

Behavioural thermoregulation in a temperature-sensitive coral reef fish, the five-lined cardinalfish (*Cheilodipterus quinquelineatus*)

Nay, T. J., Johansen, J. L., Habary, A., Steffensen, John Fleng & Rummer, J. L., 2015, I: Coral Reefs. 34, 4, s. 1261-1265 5 s.

Effects of temperature on specific dynamic action in Atlantic cod *Gadus morhua*

Tirsgård, B., Svendsen, J. C. & Steffensen, John Fleng, 2015, I: Fish Physiology & Biochemistry. 41, 1, s. 41-50 10 s.

Fast-starting after a breath: air-breathing motions are kinematically similar to escape responses in the catfish

Hoplosternum littorale

Domenici, P., Norin, T., Bushnell, P. G., Johansen, J. L., Skov, P. V., Svendsen, M. B. S., Steffensen, John Fleng & Abe, A. S., 2015, I: Biology Open. 4, s. 79-85 7 s.

Fish swimming in schools save energy regardless of their spatial position

Marras, S., Killen, S. S., Lindstroem, J., McKenzie, D. J., Steffensen, John Fleng & Domenici, P., 2015, I: Behavioral Ecology and Sociobiology. 69, 2, s. 219-226 8 s.

Intraspecific variation in aerobic and anaerobic locomotion: gilthead sea bream (*Sparus aurata*) and Trinidadian guppy (*Poecilia reticulata*) do not exhibit a trade-off between maximum sustained swimming speed and minimum cost of transport

Svendsen, J. C., Tirsgård, B., Cordero, G. A. & Steffensen, John Fleng, 2015, I: Frontiers in Physiology. 6, 12 s., 43.

Not so fast: swimming behavior of sailfish during predator-prey interactions using high-speed video and accelerometry

Marras, S., Noda, T., Steffensen, John Fleng, Svendsen, M. B. S., Krause, J., Wilson, A. D. M., Kurvers, R. H. J. M., Herbert-Read, J., Boswell, K. M. & Domenici, P., 2015, I: Integrative and Comparative Biology. 55, 4, s. 719-727 9 s.

Prolonged SDA and reduced digestive efficiency under elevated CO₂ may explain reduced growth in Atlantic cod (*Gadus morhua*)

Tirsgård, B., Moran, D. & Steffensen, John Fleng, 2015, I: Aquatic Toxicology. 158, s. 171-180 10 s.

The effect of temperature and body size on metabolic scope of activity in juvenile Atlantic cod *Gadus morhua* L.

Tirsgård, B., Behrens, J. W. & Steffensen, John Fleng, 2015, I: Comparative Biochemistry and Physiology - Part A: Molecular & Integrative Physiology. 179, s. 89-94 6 s.

Winter temperatures decrease swimming performance and limit distributions of tropical damselfishes

Johansen, J. L., Steffensen, John Fleng & Jones, G. P., 2015, I: Conservation Physiology. 3, 1, 12 s.

Distribution and feeding ecology of the Greenland shark (*Somniosus microcephalus*) in Greenland waters

Nielsen, J., Hedeholm, R. B., Simon, M. & Steffensen, John Fleng, 2014, I: Polar Biology. 37, 1, s. 37-46 10 s.

Function and control of the fish secondary vascular system, a contrast to mammalian lymphatic systems

Rummer, J. L., Wang, S., Steffensen, John Fleng & Randall, D. J., 2014, I: Journal of Experimental Biology. 217, s. 751-757 7 s.

How sailfish use their bills to capture schooling prey

Domenici, P., Wilson, A. D. M., Kurvers, R. H. J. M., Marras, S., Herbert-Read, J. E., Steffensen, John Fleng, Krause, S., Viblanc, P. E., Couillaud, P. & Krause, J., 2014, I: Proceedings of the Royal Society B: Biological Sciences. 281, 1784, 7 s.

Physiological mechanisms underlying individual variation in tolerance of food deprivation in juvenile European sea bass, *Dicentrarchus labrax*

McKenzie, D. J., Vergnet, A., Chatain, B., Vandeputte, M., Desmarais, E., Steffensen, John Fleng & Guinand, B., 2014, I: Journal of Experimental Biology. 217, 18, s. 3283-3292 10 s.

Severe hypoxia impairs lateralization in a marine teleost fish

Lucon-Xiccato, T., Nati, J. J. H., Blasco, F. R., Johansen, J. L., Steffensen, John Fleng & Domenici, P., 2014, I: Journal of Experimental Biology. 217, 23, s. 4115-4118 4 s.

The response of striped surfperch *Embiotoca lateralis* to progressive hypoxia: swimming activity, shoal structure, and estimated metabolic expenditure

Cook, D. G., Brown, E. J., Lefevre, S., Domenici, P. & Steffensen, John Fleng, 2014, I: Journal of Experimental Marine Biology and Ecology. 460, s. 162-169 8 s.

Unsteady flow affects swimming energetics in a labriform fish (*Cymatogaster aggregata*)

Roche, D. G., Taylor, M. K., Binning, S. A., Johansen, J. L., Domenici, P. & Steffensen, John Fleng, 2014, I: Journal of Experimental Biology. 217, s. 414-422 9 s.

Accelerometer tags: detecting and identifying activities in fish and the effect of sampling frequency

Broell, F. B., Noda, T., Wright, S., Domenici, P., Steffensen, John Fleng, Auclair, J. & Taggart, C. T., 2013, I: Journal of Experimental Biology. 216, 7, s. 1255-1264 10 s.

Active predation by Greenland shark *Somniosus microcephalus*

Nielsen, J., hedeholm, R., Simon, M. & Steffensen, John Fleng, 2013.

Differential occurrence of immune cells in the primary and secondary vascular systems in rainbow trout, *Oncorhynchus mykiss* (Walbaum)

Rasmussen, K. J., Steffensen, John Fleng & Buchmann, Kurt, 2013, I: Journal of Fish Diseases. 36, 7, s. 675-679 5 s.

Effects of intraspecific variation in reproductive traits, pectoral fin use and burst swimming on metabolic rates and swimming performance in the Trinidadian guppy (*Poecilia reticulata*)

Svendsen, J. C., Banet, A. I., Christensen, R. H. B., Steffensen, John Fleng & Aarestrup, K., 2013, I: Journal of Experimental Biology. 216, 18, s. 3564-3574 11 s.

Energetic extremes in aquatic locomotion by coral reef fishes

Fulton, C. J., Johansen, J. L. & Steffensen, John Fleng, 2013, I: PLoS ONE. 8, 1, 6 s., e54033.

Excess post-hypoxic oxygen consumption in Atlantic cod *Gadus morhua*

Plambech, M., Van Deurs, M., Steffensen, John Fleng, Tirsgård, B. & Behrens, J. W., 2013, I: Journal of Fish Biology. 83, 2, s. 396-403 8 s.

Excess post-hypoxic oxygen consumption is independent from lactate accumulation in two cyprinid fishes

Genz, J., Jyde, M. B., Svendsen, J. C., Steffensen, John Fleng & Ramløv, H., 2013, I: Comparative Biochemistry and Physiology - Part A: Molecular & Integrative Physiology. 165, 1, s. 54-60 7 s.

Hypercapnia adversely affects postprandial metabolism in the European eel (*Anguilla anguilla*)

Methling, C., Pedersen, P. B., Steffensen, John Fleng & Skov, P. V., 2013, I: Aquaculture. 416-417, s. 166-172 7 s.

Local Adaptation to Altitude Underlies Divergent Thermal Physiology in Tropical Killifishes of the Genus *Aphyosemion*

McKenzie, D., Estivales, G., Svendsen, J. C., Steffensen, John Fleng, Agnèse, J. & Nudds, R. L., 2013, I: PLoS One. 8, 1

The effect of hypoxia on fish swimming performance and behaviour: swimming physiology of fish

Domenici, P., Herbert, N. A., Lefrançois, C., Steffensen, John Fleng & McKenzie, D., 2013, *Swimming Physiology of Fish*. Palstra, A. P. & Planas, J. V. (red.). Springer Science+Business Media, s. 129-159 31 s.

The effects of temperature on specific dynamic action and ammonia excretion in pikeperch (*Sander lucioperca*)

Frisk, M., Steffensen, John Fleng & Skov, P. V., 2013, I: Aquaculture. 404-405, s. 65-70 6 s.

Aerobic capacity influences the spatial position of individuals within fish schools

Killen, S. S., Marras, S., Steffensen, John Fleng & McKenzie, D., 2012, I: Proceedings of the Royal Society B: Biological Sciences. 279, 1727, s. 357-364 8 s.

AquaResp® - free open-source software for measuring oxygen consumption of resting aquatic animals

Steffensen, John Fleng, 2012.

Conservation physiology of marine fishes: advancing the predictive capacity of models

Jørgensen, C., Peck, M. A., Antognarelli, F., Azzurro, E., Burrows, M. T., Cheung, W. W. L., Cucco, A., Holt, R. E., Huebert, K. B., Marras, S., McKenzie, D., Metcalfe, J., Perez-Ruzafa, A., Sinerchia, M., Steffensen, John Fleng, Teal, L. R. & Domenici, P., 2012, I: Biology Letters. 8, 6, s. 900-903 4 s.

Energetics of swimming of schooling fish

Steffensen, John Fleng, 2012.

Excess posthypoxic oxygen consumption in rainbow trout (*Oncorhynchus mykiss*): recovery in normoxia and hypoxia

Svendsen, J. C., Steffensen, John Fleng, Aarestrup, K., Frisk, M., Eterodt, A. & Jyde, M., 2012, I: Canadian Journal of Zoology. 90, 1, s. 1-11 11 s.

Fast-starting for a breath: Air breathing in *Hoplosternum littorale*

Steffensen, John Fleng, 2012. 1 s.

Fish positions relative to neighbours modulate the hydrodynamic advantages of schooling

Steffensen, John Fleng, 2012.

In vivo near real time imaging of oxygen partial pressures in the glass catfish (*Kryptopterus bichirris*)
Steffensen, John Fleng, 2012.

Partition of aerobic and anaerobic swimming costs and their correlation to tail-beat frequency and burst activity in *Sparus aurata*
Steffensen, John Fleng, 2012.

The contribution of air breathing to aerobic scope and exercise performance in the banded knifefish *Gymnotus carapo* L
McKenzie, D. J., Steffensen, John Fleng, Taylor, E. W. & Abe, A. S., 2012, I: Journal of Experimental Biology. 215, s. 1323-1330 8 s.

The temperature challenges on cardiac performance in winter-quiescent and migration-stage eels *Anguilla anguilla*
Methling, C., Steffensen, John Fleng & Skov, P. V., 2012, I: Comparative Biochemistry and Physiology - Part A: Molecular & Integrative Physiology. 163, 1, s. 66-73 8 s.

The whole blood oxygen binding properties of a large but presumably sluggish polar elasmobranch, the Greenland shark *Somniosus microcephalus*
Steffensen, John Fleng, 2012.

Thermal optimum for pikeperch (*Sander lucioperca*) and the use of ventilation frequency as a predictor of metabolic rate
Frisk, M., Skov, P. V. & Steffensen, John Fleng, 2012, I: Aquaculture. 324-325, s. 151-157 7 s.

Critical threshold size for overwintering sandeels (*Ammodytes marinus*)
van Deurs, M., Hartvig, M. & Steffensen, John Fleng, 1 dec. 2011, I: Marine Biology. 158, 12, s. 2755-2764 10 s.

Pop Up Satellite Tags Impair Swimming Performance and Energetics of the European Eel (*Anguilla anguilla*)
Methling, C., Tudorache, C., Skov, P. V. & Steffensen, John Fleng, 8 jun. 2011, I: P L o S One. 6, 6, s. e20797

Effects of maternal stress coping style on offspring characteristics in rainbow trout (*Oncorhynchus mykiss*): [plus] Corrigendum
Andersson, M. Å., Silva, P. I. M., Steffensen, John Fleng & Höglund, E., 2011, I: Hormones and Behavior. 60, 5, s. 699-705 7 s.

Primary versus secondary drivers of foraging activity in sandeel schools (*Ammodytes tobianus*)
Van Deurs, M. S. K., Behrens, J. W., Warnar, T. & Steffensen, John Fleng, 2011, I: Marine Biology. 158, 8, s. 1781-1789 9 s.

The hypoxia avoidance behaviour of juvenile Atlantic cod (*Gadus morhua* L.) depends on the provision and pressure level of an O₂ refuge
Herbert, N. A., Skjaeraasen, J. E., Nilsen, T., Salvanes, A. G. V. & Steffensen, John Fleng, 2011, I: Marine Biology. 158, 4, s. 737-746 10 s.

Hypoxia-induced metastasis model in embryonic zebrafish
Rouhi, P., Jensen, L. D., Cao, Z., Hosaka, K., Lanne, T., Wahlberg, E., Steffensen, John Fleng & Cao, Y., 1 dec. 2010, I: Nature Protocols (Print). 5, 12, s. 1911-1918 8 s.

Hypoxia-induced retinopathy model in adult zebrafish
Cao, Z., Jensen, L. D., Rouhi, P., Hosaka, K., Lanne, T., Steffensen, John Fleng, Wahlberg, E. & Cao, Y., 1 dec. 2010, I: Nature Protocols (Print). 5, 12, s. 1903-1910 8 s.

Embryonic suckling and maternal specializations in the live-bearing teleost *Zoarcetes viviparus*
Skov, P. V., Steffensen, John Fleng, Sorensen, T. F. & Qvortrup, Klaus, 15 nov. 2010, I: Journal of Experimental Marine Biology and Ecology. 395, 1-2, s. 120-127 8 s.

The accuracy and limitations of a new meter used to measure aqueous carbon dioxide

Moran, D., Tirsgård, B. & Steffensen, John Fleng, 1 nov. 2010, I: *Aquacultural Engineering*. 43, 3, s. 101-107 7 s.

A MODEL OF OXYGEN CONDITIONS IN A SCHOOL OF FISH BASED ON EXPERIMENTAL RESPIROMETRY

Steffensen, John Fleng, 2010.

DIFFERENCES IN POST HATCH METABOLIC RATE AND DEVELOPMENTAL RATE IN ATLANTIC SALMON (*SALMO SALAR L*): EVIDENCE FOR COMPENSATORY GROWTH?

Steffensen, John Fleng, 2010.

ENERGETIC EXTREMES IN A HOSTILE HABITAT: FISH LOCOMOTION ON WAVE-SWEPT CORAL REEFS

Steffensen, John Fleng, 2010.

Effect of moderate hypoxia at three acclimation temperatures on stress responses in Atlantic cod with different haemoglobin types

Methling, C., Aluru, N., Vijayan, M. M. & Steffensen, John Fleng, 2010, I: *Comparative Biochemistry and Physiology A*. 156, 4, s. 485-90 5 s.

Influence of moderate and severe hypoxia on the diurnal activity pattern of lesser sandeel *Ammodytes tobianus*

Behrens, J. W., Petersen, J. K., Aertebjerg, G. & Steffensen, John Fleng, 2010, I: *Journal of Fish Biology*. 77, 3, s. 538-51 13 s.

Kinematics and energetic benefits of schooling in the labriform fish, striped surfperch *Embiotoca lateralis*

Johansen, J. L., Vaknin, R., Steffensen, John Fleng & Domenici, P., 2010, I: *Marine Ecology - Progress Series*. 420, s. 221-229 9 s.

Partition of aerobic and anaerobic swimming costs related to gait transitions in a labriform fish

Svendsen, J. C., Tudorache, C., Jordan, A. D., Steffensen, John Fleng, Aarestrup, K. & Domenici, P., 2010.

Partition of aerobic and anaerobic swimming costs related to gait transitions in a labriform swimmer

Svendsen, J. C., Tudorache, C., Jordan, A. D., Steffensen, John Fleng, Aarestrup, K. & Domenici, P., 2010, I: *Journal of Experimental Biology*. 213, Pt 13, s. 2177-83 6 s.

RELATION BETWEEN STRESS COPING STYLE, LARVAL DEVELOPMENT AND TIME TO EMERGANCE IN RAINBOW TROUT (*ONCORHYNCHUS MYKISS*)

Steffensen, John Fleng, 2010.

SWISTRACK - AN OPEN SOURCE, SOFTWARE PACKAGE APPLICABLE TO TRACKING OF FISH LOCOMOTION AND BEHAVIOUR.

Steffensen, John Fleng, 2010.

THE EFFECT OF HYPOXIA ON THE MAXIMUM METABOLIC RATE AND SPECIFIC DYNAMIC ACTION IN ATLANTIC COD *Gadus morhua*.

Steffensen, John Fleng, 2010.

The effects of swimming pattern on the energy use of gilthead seabream (*Sparus aurata L.*)

Steinhausen, M. F., Steffensen, John Fleng & Andersen, N. G., 2010, I: *Marine and Freshwater Behaviour and Physiology*. 43, 4, s. 227-241

Abolition of reflex bradycardia by cardiac vagotomy has no effect on the regulation of oxygen uptake by Atlantic cod in progressive hypoxia

McKenzie, D. J., Skov, P. V., Taylor, E. W. T., Wang, T. & Steffensen, John Fleng, 2009, I: *Comparative Biochemistry and Physiology A*. 153, 3, s. 332-8 6 s.

ENERGETIC EXTREMES IN REEF FISH OCCUPYING HARSH HABITATS

Steffensen, John Fleng, 2009.

Larval developmental rate, metabolic rate and future growth performance in Atlantic salmon

Serrano, J. V., Aberg, M., Gjoen, H. M., Steffensen, John Fleng & Hyglund, E., 2009, I: Comparative Biochemistry and Physiology A. 2, Suppl. 1, s. S140

Nitric oxide permits hypoxia-induced lymphatic perfusion by controlling arterial-lymphatic conduits in zebrafish and glass catfish

Dahl Ejby Jensen, L., Cao, R., Hedlund, E., Söll, I., Lundberg, J. O., Hauptmann, G., Steffensen, John Fleng & Cao, Y., 2009, I: Proceedings of the National Academy of Science of the United States of America. 106, 43, s. 18408-13 5 s.

Pectoral fin beat frequency predicts oxygen consumption during spontaneous activity in a labriform swimming fish (*Embiotoca lateralis*)

Tudorache, C., Jordan, Anders Drud, Svendsen, J. C., Domenici, P., DeBoeck, G. & Steffensen, John Fleng, 2009, I: Environmental Biology of Fishes. 84, s. 121-127 6 s.

Physiological energetics may contribute to competitive exclusion in African killifish (*Aphyosemion spp.*)

McKenzie, D. J., Svendsen, J. C., Steffensen, John Fleng & Agnese, J., 2009, I: Comparative Biochemistry and Physiology A. 2, Supplement 1, s. S150 1 s.

The role of adrenaline as a modulator of cardiac performance in two Antarctic fishes

Skov, P. V., Bushnell, P. G., Tirsgaard, B. & Steffensen, John Fleng, 2009, I: Polar Biology. 32, 2, s. 215-223

Does autonomic regulation of heart rate optimise oxygen uptake in teleost fishes?

McKenzie, D., Taylor, E., Wang, T., Skov, P. V., Steffensen, John Fleng, Campbell, H., Leite, C. & Abe, A., 2008, I: Comparative Biochemistry and Physiology - Part A: Comparative Physiology. 150, 3, Supplement, s. S117 1 s.

Effect of ammonia on weatherloach (*Misgurnus anguillicaudatus*) metabolism under aquatic and aerial conditions

Silva, J. M., Coimbra, J., Steffensen, John Fleng & Wilson, J., 2008, I: Comparative Biochemistry and Physiology A. 150, 3, Supplement 1, s. S120 1 s., A6.21.

Komparative studier af hvid- og rødblodede antarktiske fisks fysiologi og kardiovaskulære anatomi.

Steffensen, John Fleng, 2008, *Dansk Ekspeditionsfond - Galathea 3 2006-2007*. 1. udg. Dansk Ekspeditionsfond Galathea 3 og Thaning & Appel, s. 200-204

Plasma FITC-dextran exchange between the primary and secondary circulatory systems in the Atlantic cod, *Gadus Morhua*.

Fischer, C. & Steffensen, John Fleng, 2008, I: Fish Physiology & Biochemistry. 34, 3, s. 245-9 4 s.

Suckling behaviour in a viviparous teleost: role of the post-ovulatory follicle in maternal-embryonic exchange

Skov, P. V., Sørensen, T. & Steffensen, John Fleng, 2008, I: Comparative Biochemistry and Physiology A. 150, 3, Supplement, s. S122 1 s., A6.27.

The parasite fauna of *Arctogadus glacialis* (Peters) (Gadidae) from western and eastern Greenland

Køie, M., Steffensen, John Fleng, Møller, Peter Rask & Christiansen, J. S., 2008, I: Polar Biology. 31, 9, s. 1017-1021 5 s.

The role of adrenaline as a modulator of cardiac performance in three Notothenioid fishes

Skov, P. V., Bushnell, P., Tirsgaard, B. & Steffensen, John Fleng, 2008, I: Comparative Biochemistry and Physiology A. 150, 3, Supplement, s. S97-S98 2 s., A5.3.

Variation in oxygen consumption and temperature preference of Atlantic cod, *Gadus morhua*, from Denmark and Greenland

Steffensen, John Fleng, 2008, I: Comparative Biochemistry and Physiology - Part A: Molecular & Integrative Physiology. 150, 3, Supplement, s. S206-S207

Vascularization of the lateral line organ in the Atlantic cod: involvement of the secondary vascular system

Bielecki, J., Skov, P. V., Tranum-Jensen, Jørgen & Steffensen, John Fleng, 2008, I: Journal of Zoology. 276, 2, s. 142-148
6 s.

Effects of ration size and hypoxia on specific dynamic action in the cod

Jordan, Anders Drud & Steffensen, John Fleng, 2007, I: Physiological and Biochemical Zoology.

Erratum: Gait transition and oxygen consumption in swimming striped perch *Embiotoca lateralis* Agassiz (Journal of Fish Biology (2006) 69 (1612-1625))

Cannas, M., Schaefer, J., Domenici, P. & Steffensen, John Fleng, 2007, I: Journal of Fish Biology.

Oxygen consumption of fish exposed to hypoxia: Are they all oxyregulators or are any oxyconformers?

Steffensen, John Fleng, 2007, *Fish Physiology, Toxicology, and Water Quality: Proceedings of the Ninth International Symposium, Capri, Italy, April 24-28, 2006*. Brauner, C. J., Suvajdzic, K., Nilsson, G. & Randall, D. (red.). Ecosystems Research Division Athens, Georgia, s. 239-244

Oxygen dynamics around buried lesser sandeels *Ammodytes tobianus* (Linnaeus 1785): mode of ventilation and oxygen requirements.

Behrens, J. W., Stahl, H. J., Steffensen, John Fleng & Glud, R. N., 2007, I: Journal of Experimental Biology. 210, Pt 6, s. 1006-14 8 s.

Swimming alters responses to hypoxia in the Adriatic sturgeon *Acipenser naccarii*

McKenzie, D. J., Steffensen, John Fleng, Korsmeyer, K., Whiteley, N. M., Bronzi, P. & Taylor, E. W., 2007, I: Journal of Fish Biology. 70, s. 651-658

The Effect of Ration Size and Hypoxia on Specific Dynamic Action in the Cod

Does fish from the Disko Bay area of Greenland possess antifreeze proteins during the summer?

Enevoldsen, L. T., Heiner, I., DeVries, A. L. & Steffensen, John Fleng, 2003, I: *Polar Biology*. 26, s. 365-370

Effects of growth hormone transgenesis on metabolic rate, exercise performance and hypoxia tolerance in tilapia hybrids

McKenzie, D., Martinez, R., Morales, A., Acosta, J., Morales, R., Taylor, E., Steffensen, John Fleng & Estrada, M., 2003, I: *Journal of Fish Biology*. 63, 2, s. 398-409

Fiskenes sekundære cirkulationssystem

Skov, P. V. & Steffensen, John Fleng, 2003, I: *Naturens Verden*. 10, s. 14-19

Intra-school positional preference and reduced tail beat frequency in trailing positions in schooling roach under experimental conditions

Svendsen, J. C., Skov, J., Bildsøe, M. & Steffensen, John Fleng, 2003, I: *Journal of Fish Biology*. 62, 4, s. 834-846 13 s.

Preferred temperature of juvenile Atlantic cod *Gadus morhua* with different haemoglobin genotypes at normoxia and moderate hypoxia.

Petersen, M. F. & Steffensen, John Fleng, 2003, I: *Journal of Experimental Biology*. 206, Pt 2, s. 359-64 5 s.

The blood volumes of the primary and secondary circulatory system in the Atlantic cod, *Gadus morhua* L., using plasma bound Evans Blue and compartmental analysis.

Skov, P. V. & Steffensen, John Fleng, 2003, I: *Journal of Experimental Biology*. 206, s. 591-599 8 s.

Tolerance of chronic hypercapnia by the European eel *Anguilla anguilla*.

McKenzie, D. J., Piccolella, M., Dalla Valle, A. Z., Taylor, E. W., Bolis, C. L. & Steffensen, John Fleng, 2003, I: *Journal of Experimental Biology*. 206, Pt 10, s. 1717-26 9 s.

Energetics of median and paired fin swimming, body and caudal fin swimming, and gait transition in parrotfish (*Scarus schlegelii*) and triggerfish (*Rhinecanthus aculeatus*).

Korsmeyer, K. E., Steffensen, John Fleng & Herskin, J., 2002, I: *Journal of Experimental Biology*. 205, Pt 9, s. 1253-63 10 s.

Metabolic cold adaptation of polar fish based on measurements of aerobic oxygen consumption: fact or artefact? Artefact!

Steffensen, John Fleng, 2002, I: *Comparative Biochemistry and Physiology A*. 132, 4, s. 789-95 6 s.

Phylogenetic position of the cryopelagic codfish genus *Arctogadus* Drjagin, 1932 based on partial mitochondrial cytochrome b sequences

Møller, Peter Rask, Jordan, Anders Drud, Gravlund, P. & Steffensen, John Fleng, 2002, I: *Polar Biology*. 25, 5, s. 342-349

Respirometry across the gait transition in a labriform swimmer (*Embiotoca lateralis*).

Schaefer, J., Cannas, M. & Steffensen, John Fleng, 2002, I: *Integrative and Comparative Biology*. 6, s. 1307

The effect of progressive hypoxia on school structure and dynamics in Atlantic herring *Clupea harengus*.

Domenici, P., Ferrari, R. S., Steffensen, John Fleng & Batty, R. S., 2002, I: *Proceedings of the Royal Society of London. Biological Sciences*. 269, 1505, s. 2103-11 8 s.

Tolerance of acute hypercapnic acidosis by the European eel (*Anguilla anguilla*).

McKenzie, D. J., Taylor, E. W., Dalla Valle, A. Z. & Steffensen, John Fleng, 2002, I: *Journal of Comparative Physiology. B, Biochemical, Systemic, and Environmental Physiology*. 172, 4, s. 339-46 7 s.

Growth hormone transgenic tilapia (*Oreochromis* sp.) compensate for increased metabolic rate to preserve exercise performance and hypoxia tolerance

McKenzie, D. J., Martínez, R., Morales, A., Acosta, J., Taylor, E. W., Steffensen, John Fleng & Estrada, M. P., 2001, I: *Journal of Physiology*. xx, s. 531

Oxygen consumption of East Siberian cod: no support for the metabolic cod adaptation theory

Steffensen, John Fleng, Jordan, A. D. & Jungersen, M., 2001, I: *Journal of Fish Biology*. 59, s. 818-823

Oxygen consumption of East Siberian cod: no support for the metabolic cold adaptation theory

Jordan, Anders Drud, Jungersen, M. & Steffensen, John Fleng, 2001, I: *Journal of Fish Biology*. 59, 4, s. 818-823

Effects of dietary fatty acid composition on metabolic rate and responses to hypoxia in the European eel (*Anguilla anguilla*)

McKenzie, D. J., Piraccini, G., Piccolella, M., Steffensen, John Fleng, Bolis, C. L. & Taylor, E. W., 2000, I: *Fish Physiology & Biochemistry*. 22, 4, s. 281-296

The effect of progressive hypoxia on swimming activity and schooling in Atlantic herring

Domenici, P., Steffensen, John Fleng & Batty, R. S., 2000, I: *Journal of Fish Biology*. 57, 6, s. 1526-1538

Tolerance of hypercapnic acidosis by the European eel, *Anguilla anguilla*

McKenzie, D., Dalla Valle, A., Steffensen, John Fleng & Taylor, E., 2000, I: *Journal of Physiology. Suppl. S*, s. 282P-283P

The influence of dietary fatty acid composition on the respiratory and cardiovascular physiology of Adriatic sturgeon (*Acipenser naccarii*): a review

McKenzie, D., Piraccini, G., Agnisola, C., Steffensen, John Fleng, Bronzi, P., Bolis, C., Tota, B. & Taylor, E., 1999, I: *Journal of Applied Ichthyology*. 15, 4-5, s. 265-269

Blood Volume, Plasma Volume and Circulation Time in a High-Energy-Demand Teleost, the Yellowfin Tuna (*Thunnus Albacares*)

Brill, R. W., Cousins, K. L., Jones, D. R., Bushnell, P. G. & Steffensen, John Fleng, 1998, I: *Journal of Experimental Biology*. 201, 5, s. 647-654

Energy savings in sea bass swimming in a school: measurements of tail beat frequency and oxygen consumption at different swimming speeds

Herskin, J. & Steffensen, John Fleng, 1998, I: Journal of Fish Biology. 53, 2, s. 366-376

Muscle dynamics in fish during steady swimming

Shadwick, R., Steffensen, John Fleng, Katz, S. & Knowler, T., 1998, I: Integrative and Comparative Biology. 38, 4, s. 755-770

Swimming performance, venous oxygen tension and cardiac performance of coronary-ligated rainbow trout, *Oncorhynchus mykiss*, exposed to progressive hypoxia.

Steffensen, John Fleng & Farrell, A. P., 1998, I: Comparative Biochemistry and Physiology A. 119, 2, s. 585-92 7 s.

Effects of temperature, hypoxia and activity on the metabolism of juvenile Atlantic cod

Schurmann, H. & Steffensen, John Fleng, 1997, I: Journal of Fish Biology. 50, s. 1166-1180

Macromolecular capillary permeability of three species of fish.

Bushnell, P., Steffensen, John Fleng, Brill, R. & Jones, D., 1997, I: The FASEB Journal. 3, s. 558

The effects of acute hypoxia and hypercapnia on oxygen consumption of the freshwater European eel

Cruz-Neto, A. P. & Steffensen, John Fleng, 1997, I: Journal of Fish Biology. 50, s. 759-769

Torpor in Three Species of Brazilian Hummingbirds under Semi-Natural Condition

Bech, C., Steffensen, John Fleng, Merger, M., Bicodu, J. E. P. W. & Abe, A. S., 1997, I: The condor. 99, s. 780-788

Effects of diet on spontaneous locomotor activity and oxygen consumption in Adriatic sturgeon (*Acipenser naccarii*)

McKenzie, D. J., Piraccini, G., Steffensen, John Fleng, Bolis, C. L., Bronzi, P. & Taylor, E. W., okt. 1995, I: Fish Physiology and Biochemistry. 14, 5, s. 341-355 15 s.

Protein synthesis, growth and energetics in larval herring (*Clupea harengus*) at different feeding regimes

Houlihan, D. F., Pedersen, B. H., Steffensen, John Fleng & Brechin, J., jun. 1995, I: Fish Physiology & Biochemistry. 14, 3, s. 195-208 14 s.

Effects of diet on spontaneous locomotor activity and oxygen consumption in Adriatic sturgeon (*Acipenser naccarii*)

McKenzie, D. J., Piraccini, G., Steffensen, John Fleng, Bolis, C. L., Bronzi, P. & Taylor, E. W., 1995, I: Fish Physiology & Biochemistry. 14 (5), s. 341-355

Protein synthesis, growth and energetics in larval herring (*Clupea harengus*) at different feeding regimes

Houlihan, D. F., Pedersen, B. H., Steffensen, John Fleng & Brechin, J., 1995, I: Fish Physiology & Biochemistry. 14 (3), s. 195-208

Torpor e energética em Beija-flores do Sudeste Brasileiro

Abe, A. S., Bech, C., Steffensen, John Fleng, Berger, M. & Bicodu, J. E. P. W., 1995, I: Museu de Biologia Mello Leitao. Boletim. 2, s. 3-13

Exercise metabolism in two species of cod in arctic waters

Bushnell, P. G., Steffensen, John Fleng, Schurmann, H. & Jones, D. R., 1994, I: Polar Biology. 14, s. 43-48

Oxygen consumption in four species of teleosts from Greenland: no evidence of metabolic cold adaptation

Steffensen, John Fleng, Bushnell, P. G. & Schurmann, H., 1994, I: Polar Biology. 14, 1, s. 49-54

Spontaneous swimming activity of Atlantic cod *Gadus morhua* exposed to graded hypoxia at three temperatures

Schurmann, H. & Steffensen, John Fleng, 1994, I: Journal of Experimental Biology. 197, s. 129-142

Flight cost and economy of nectar-feeding in the bat *Glossophaga soricina* (Phyllostomidae: Glossophaginae)

Winter, Y., von Helversen, O., Norgerg, U. M., Kunz, T. H. & Steffensen, John Fleng, 1993, *Plant-animal interactions in tropical environments*. Bonn: Museum Alexander Koenig, s. 167-174

The cost of hovering and forward flight in a nectar-feeding bat, *Glossophaga soricina*, estimated from aerodynamic theory.

Norberg, U. M., Kunz, T. H., Steffensen, John Fleng, Winter, Y. & von Helversen, O., 1993, I: *Journal of Experimental Biology*. 182, s. 207-220 s.

Har fisk et lymfekarsystem?

Lomholt, J. P. & Steffensen, John Fleng, 1992, I: *Naturens Verden*. 1, s. 15-21

Lethal oxygen levels at different temperatures and the preferred temperature during hypoxia of the Atlantic cod *Gadus morhua* L.

Schurmann, H. & Steffensen, John Fleng, 1992, I: *Journal of Fish Biology*. 41, 6, s. 927-934

The effect of hypoxia on the preferred temperature of the rainbow trout, *Oncorhynchus mykiss*, and the Atlantic cod, *Gadus morhua*

Steffensen, John Fleng & Schurmann, H., 1992, I: *Proc.12th Symp.Baltic Mar.Biol.*, Helsingør, Denmark. s. 157-162

The secondary vascular system

Steffensen, John Fleng & Lomholt, J. P., 1992, *Fish Physiol.*, XIII. Academic Press, s. 185-217

Ventilatory and respiratory responses in fish: adaptations to environment

Steffensen, John Fleng, 1992, *The Vertebrate Gas Transport Cascade: Adaptations to the environment and Mode of Life*. CRC Press, s. 60-71

Fisk foretrækker lavere temperatur under iltsvind

Schurmann, H. & Steffensen, John Fleng, 1991, I: *Vand & Miljø*. 9, s. 434-437

The influence of Hypoxia on the Preferred Temperature of Rainbow Trout *Oncorhynchus mykiss*

Schurmann, H., Steffensen, John Fleng & Lomholt, J. F., 1991, I: *Journal of Experimental Biology*. 157, s. 75-86

Effects of exercise training and coronary ablation on swimming performance, heart size, and cardiac enzymes in rainbow trout, *Oncorhynchus mykiss*

FARRELL, A., JOHANSEN, J., Steffensen, John Fleng, MOYES, C., WEST, T. & SUAREZ, R., 1990, I: *Canadian Journal of Zoology*. 68, 6, s. 1174-1179

Some errors in respirometry of aquatic breathers: How to avoid and correct for them

Steffensen, John Fleng, 1989, I: *Fish Physiology & Biochemistry*. 6, 1, s. 49-59

An analysis of the energetic cost of the branchial and cardiac pumps during sustained swimming in trout

FARRELL, A. & Steffensen, John Fleng, 1987, I: {FISH PHYSIOLOGY AND BIOCHEMISTRY}. 4, 2, s. 73-79

Control of red cell volume and pH in trout: Effects of isoproterenol, transport inhibitors, and extracellular pH in bicarbonate/carbon dioxide-buffered media

NIKINMAA, M., Steffensen, John Fleng, TUFTS, B. & RANDALL, D., 1987, I: *Journal of Experimental Zoology. Part A: Ecological Genetics and Physiology (Print Edition)*. 242, 3, s. 273-281

Coronary ligation reduces maximum sustained swimming speed in Chinook salmon, *Oncorhynchus tshawytscha*.

Farrell, A. P. & Steffensen, John Fleng, 1987, I: *Comparative Biochemistry and Physiology - Part A: Comparative Physiology*. 87, 1, s. 35-72 s.

Effect of burst swimming and adrenaline infusion on O₂ consumption and CO₂ excretion in rainbow trout, *Salmo gairdneri*.
Steffensen, John Fleng, Tufts, B. L. & Randall, D. J., 1987, I: Journal of Experimental Biology. 131, s. 427-34 7 s.

Ion exchange mechanisms on the erythrocyte membrane of the aquatic salamander, *Amphiuma tridactylum*.

Tufts, B. L., Nikinmaa, M., Steffensen, John Fleng & Randall, D. J., 1987, I: Journal of Experimental Biology. 133, s. 329-38 9 s.

***In vivo* Observations on a Specialized Microvasculature, the Primary and Secondary Vessels in Fishes**

Steffensen, John Fleng, LOMHOLT, J. & VOGEL, W., 1986, I: Acta Zoologica. 67, 4, s. 193-200

Cutaneous oxygen uptake and its relation to skin blood perfusion and ambient salinity in the plaice, *Pleuronectes platessa*.

Steffensen, John Fleng & Lomholt, J. P., 1985, I: Comparative Biochemistry and Physiology - Part A: Comparative Physiology. 81, 2, s. 373-5 2 s.

The Transition between Branchial Pumping and Ram Ventilation in Fishes: Energetic Consequences and Dependence on Water Oxygen Tension

Steffensen, John Fleng, 1985, I: Journal of Experimental Biology. 114, s. 141-150

An automated swimming respirometer

Steffensen, John Fleng, JOHANSEN, K. & BUSHNELL, P., 1984, I: Comparative Biochemistry and Physiology A. 79, 3, s. 437-440

Oxygen Consumption and Swimming Performance in Hypoxia-Acclimated Rainbow Trout *Salmo Gairdneri*

BUSHNELL, P., Steffensen, John Fleng & JOHANSEN, K., 1984, I: Journal of Experimental Biology. 113, s. 225-235

Ventilation and oxygen consumption in the hagfish, *Myxine glutinosa* L.

Steffensen, John Fleng, JOHANSEN, K., SINDBERG, C., Sørensen, J. H. & Møller, J. L., 1984, I: Journal of Experimental Marine Biology and Ecology. 84, 2, s. 173-178

Energetic cost of active branchial ventilation in the sharksucker, *Echeneis naucrates*.

Steffensen, John Fleng & Lomholt, J. P., 1983, I: Journal of Experimental Biology. 103, s. 185-92 7 s.

Gill ventilation and oxygen extraction during graded hypoxia in 2 ecologically distinct species of flatfish, the flounder (*Platichthys flesus*) and the plaice (*Pleuronectes platessa*)

Steffensen, John Fleng, LOMHOLT, J. & JOHANSEN, K., 1982, I: Environmental Biology of Fishes. 7, 2, s. 157-164

Increases in arterial blood oxygen during exercise in the lemon shark (*Negaprion brevirostris*)

BUSHNELL, P., LUTZ, P., Steffensen, John Fleng, OIKARI, A. & GRUBER, S., 1982, I: Journal of Comparative Physiology. B, Biochemical, Systemic, and Environmental Physiology. 147, 1, s. 41-47

BLOOD-OXYGEN TRANSPORT IN THE LEMON SHARK

BUSHNELL, P., Steffensen, John Fleng, LUTZ, P. & OIKARI, A., 1981, I: FEDERATION PROCEEDINGS. 3, s. 431-431

The relative importance of skin oxygen uptake in the naturally buried plaice, *Pleuronectes platessa*, exposed to graded hypoxia.

Steffensen, John Fleng, Lomholt, J. P. & Johansen, K., 1981, I: Respiratory Physiology & Neurobiology. 44, 3, s. 269-75 6 s.
